

RITHIKA PURUSHOTHAMAN

Full Stack Developer · Computer Science Engineer

+91 7550228380 • rithika.p476@gmail.com • linkedin.com/in/Rithika Purushothaman • Tamil Nadu, India

PROFESSIONAL SUMMARY

Motivated Computer Science engineering student with hands-on experience in Java, Spring Boot, Python, and modern web technologies. Skilled at building full-stack applications — from database schema design and REST API development to responsive, accessible front-end interfaces. Participated in a hackathon delivering an AI-powered education platform. Quick learner, collaborative team player, and actively seeking an internship to grow and deliver real impact.

TECHNICAL SKILLS

Languages:	Java, Python, JavaScript	Frontend:	HTML5, CSS, JavaScript (DOM)
Backend:	Java, Spring Boot, REST APIs	Database:	MySQL, Relational DB Design
Interests:	Full Stack Dev, AI ML, Backend	Soft Skills:	Problem Solving, Team Collaboration

PROJECTS

Tuition Management System | JavaScript · HTML · CSS · MySQL

- Designed and built a full-stack web application to manage tuition schedules, course listings, and time allocation, accessible from any device
- Implemented a relational MySQL database with structured schema to support real-time schedule queries and course data retrieval
- Delivered a clean, responsive UI enabling both admin and student views with intuitive navigation and real-time content updates.

Simple E-Commerce Website | full Stack Development · Internship project

- Developed a full-stack e-commerce website using HTML, CSS, JavaScript, Spring Boot, and MySQL with features including user authentication, product management, shopping cart, and order processing.
- Designed and integrated REST APIs with a responsive user interface and MySQL database, ensuring efficient product search, secure data handling, and seamless user experience.
- Created an admin dashboard to add, update, delete, and manage products, categories, customer orders, and stock availability.

Sales & Demand Forecasting for Businesses | Python · Pandas · Scikit-learn · Power BI · Matplotlib

- Developed a machine learning-based sales forecasting system using historical business data to predict future sales trends through data preprocessing, feature engineering, and regression techniques.
- Built interactive dashboards and visual reports to present forecast results, evaluate model performance, and provide business-ready insights for informed decision-making.
- Evaluated forecasting accuracy using performance metrics and error analysis, improving prediction reliability and supporting strategic inventory and sales planning.

EDUCATION

B.E. Computer Science Engineering 2023 – Present
Anand Institute of Higher Technology, Tamil Nadu

Higher Secondary Certificate (12th) Completed
Govt. Girls Higher Secondary School, Tamil Nadu — State Board

Secondary School Certificate (10th) Completed
Buvana Krishna Matriculation Hr. Sec. School, Tamil Nadu — State Board

CERTIFICATIONS

- AI & Machine learning Workshop - Genorcusx
- Full Stack Development & Machine learning Internship
- MongoDB Course completion - online certification
